

Listed Companies in Saudi Stock Exchange

Summary

The report reviews the Saudi listed companies' results of Q1 2017 compared to the same period of the last year.

Net profits of listed companies surged by 38%

For the first time, listed companies on the Saudi Stock Exchange released their financial statements based on IFRS except for banks and insurance companies, which have been required to apply IFRS for a long time. The transition to IFRS resulted in the reclassification of the financial statements for comparison periods as well as the opening balance of the financial position as of January 1, 2016.

Companies listed in Tadawul reported an increase in total profits for the first quarter of 2017 by 38% compared to Q1 2016, and 104% versus Q4 2016. The first quarter profit hit SAR 30.7 billion compared to SAR 22.26 billion for Q1 2016, and SAR 15.0 billion in Q4 2016.

This YoY increase was mostly propelled by the Utilities and Materials sectors. The utilities sector recorded net profit of SAR 5 billion compared to SAR 748 million loss in Q1 2016 due to the cancellation of municipal fees for Saudi Electricity Company which resulted in a non-recurring gain of SAR 5.9 billion. The bottom line of the basic materials sector was enhanced by higher petrochemical prices, despite the slump in the profitability of cement companies.

The banking sector maintained its market share in terms of profits, contributing 38% of aggregate profit, however the contribution fell from 52.6% in the first quarter of 2016 and 53.7% in the last quarter of 2016.

The following table shows changes in earnings and contribution per sector in Q1 2017:
