Aggregate Net Income Growth (billion SAR)

### Net profits of listed companies surge 10% in H1 2017

Companies listed on the Saudi Stock Exchange released their six-month financial statements in IFRS for the first time except for banks and insurance companies, which have been required to apply IFRS for a long time. The transition to IFRS resulted in the reclassification of the financial statements for comparison periods as well as the opening balance of the financial position as of January 1, 2016.

Companies listed in Tadawul reported a slump in total profits for the second quarter of 2017 by 10.8% compared to Q2 2016, while the six-month bottom line surged 10%, as the listed companies reported aggregate bottom line of SAR 26 billion in Q2 2017 and SAR 56 billion in H1 2017.

All main sectors but telecommunications witnessed dips in their bottom line in the second quarter. However, this six-month increase was mostly propelled by the utilities sector which reported an exceptional profit of SAR 5.9 billion from the cancellation of municipal fees for Saudi Electricity Company.

The banking sector continued to have the largest market share in terms of profits, contributing 41% of aggregate profit down from 45.8% in H1 2016, however the basic materials sector shrank from 27.7% to 26.1%. The contribution of the utilities sector edged up from 3% to 13% boosted by the nonrecurring gain.

The following table shows changes in earnings and contribution per sector in H1 2017:
